WHAT'S BEING PROPOSED?

The California State Department of Toxic Substances Control (DTSC) invites public comment on the draft Sampling and Analysis Plan (SAP) for the Chemical Soil Background Study at the Santa Susana Field Laboratory (SSFL) in the Simi Hills of Ventura County, California.

The SAP describes activities DTSC will conduct to determine the background concentrations of chemicals in soil and sediment. The background study data will be used to support the environmental investigation and closure activities at SSFL. There are several ongoing environmental programs at the SSFL, many of which require establishment and use of chemical soil background concentrations. All work performed for this study is being performed by DTSC or a contractor that is selected and directed by DTSC.

HOW DO I PARTICIPATE?

This notice provides the community an opportunity to learn more about the project and provide comments to DTSC about the proposed SAP during the public comment period. Your participation is encouraged. Comments concerning the SAP may be submitted in writing to Susan Callery, Public Participation Specialist, DTSC, 9211 Oakdale Ave, Chatsworth, Ca 91311, e-mail address: scallery@dtsc.ca.gov, and must be postmarked or e-mailed by **September 29, 2010**.
